APIC
Solutions
Specialty Systems and Electrical Services

We care about the safety of students and know we can help make a difference. In response to the growing number of threats made each year, schools around the country are turning to access control, video surveillance, alerts, analytics and access control. APIC Solutions aims to provide our schools with the technology and assistance needed to combat the fears generated from recent attacks in schools. Our systems are designed to not only minimize security breaches and notify first responders immediately but, also to offer peace of mind so that students and staff can focus on education. APIC Solutions is built to support long term relationships with Higher Education and K-12 schools across all three of our Divisions. We have a proven record of successful projects and loyal customers.
